## Summary

Data Enthusiast | Transitioning into a Full-Time Data Scientist & Generative AI Engineer

With a passion for turning raw data into actionable insights, I am on an exciting journey from being a data enthusiast to becoming a skilled Data Scientist and Generative AI Engineer. My background is rooted in solving complex problems and developing cutting-edge applications using tools like Streamlit, Stable Diffusion, Hugging Face, Docker.

### What Drives Me:

- Building intuitive, AI-powered solutions that make technology accessible to everyone.
- Helping individuals and businesses unleash the potential of AI, whether through community-building efforts or innovative startups.
- Exploring the boundaries of Generative AI to develop creative tools like image generators and chatbots.

### Highlights of My Work:

- Successfully built and deployed multiple AI/ML apps, including a "book recommendation system", "chatbot" and "AI Image Generator".
- Active contributor to open-source platforms and communities, with a strong presence on GitHub and Hugging Face Spaces.

### Core Skills:

- Data Science: Python, Streamlit, TensorFlow, scikit-learn
- AI & ML: Fine-tuning LLMs, Stable Diffusion, Hugging Face integration
- Cloud & DevOps: Google Cloud Run, Docker, GitHub Actions

### Looking Ahead:

I am eager to connect with like-minded professionals and organizations that share my vision of making AI accessible to all. Whether you're a business looking for innovative AI-driven solutions or a professional looking to collaborate, let's make technology work for everyone.

Let's Connect:
